# Tsalila at The Umpqua Discovery Center

The Tsalila Festival is located in Reedsport along the Umpqua River at the Umpqua Discovery Center. On September 18th, the 3rd grade students enjoyed the day learning about watershed restoration and salmon recovery.

The mission statement of the Umpqua Discovery Center is to provide users and visitors with education about the natural and cultural history of the lower Umpqua area.

# FUTURE BUSINESS LEADERS OF AMERICA

On Saturday September 21st, the FBLA Club members along with their advisor, Mrs. Walter, worked the concession stand at the Douglas County Speedway to raise money towards their state competition entry fees.

On September 26<sup>th</sup>, 32 North Douglas juniors and seniors went to the 2019 Southern Oregon Trade Careers Expo held at the Seven Feathers Convention Center. More than 2,000 high school students from around the state attended the event. There were around 100 exhibitors showing students the various trade career paths they could take that don't require a college degree. Students also got to participate in hands on activities, such as riding in an electric truck bucket and touring a Black Hawk helicopter. The students had a good time and learned about many new career opportunities available to them.

Technology guru Brannan Rogers sits in Mrs. Walter's room after setting up 25 new computers. The computers were purchased using High School Success funds which is intended to help prevent students from dropping out, and providing more CTE and college level education opportunities.

Mrs. Ward and the Kindergarten class had a great time creating paper bag people in their image to mark their desks for Open House. Thank you to everyone who made it out for our annual (PreK-6th) Open House night.
